What happens in Class 1B?

In year 1 we do lots of learning and have lots of fun.

Most days, 1B start by doing some spelling, reading and writing. Here we are doing some Look, Say, Cover, Write, Check on our mini whiteboards.

Later, we do a maths activity using lots of equipment, such as paddlepop sticks, counters and blocks. Here we are learning about groups of tens and ones.

Here we are rounding numbers to the nearest ten using a number line to help us.

Sometimes, we work with other year 1 classes in the library. Here we are with 1H using ice, sugar and rock salt and shaking it all to make ice cream. Yum!

We love ending our day by reading our class novel and getting our groove on.
