We turn off the lights, fans and other switches when we are not using them.

We use reusable water bottles and lunch box containers.

We make sure that we use the Compost Bin! You can use compost bins at home too.

Every Day is Earth Day in Class 1P!

June 5th is World Environment Day! This week in 1P we have learnt how to think green and act clean. This means working with our school and community to create an environmentally friendly place. Have a look at what we do in 1P to protect our environment!

Our trees are important! Make sure that you recycle paper. We love to use scrap paper for drawing!

Tania and Ahmed are our environmental monitors. They help us with the compost.

Our classroom library is full of books! If you have finished with a book, give it to a friend. We can recycle toys too!
