Class 2D has been working hard in maths and literacy groups this week. We’ve been learning about the ‘Super Six’ strategies of questioning and summarising. In maths groups we’ve been practising subtraction.

We learnt there were about 5000 permanent workers building the great pyramids.

We learnt that Egyptian workers building pyramids were paid using bread and meat. The workers were able to swap their food with other workers to help them get different types of food.

We’ve been practising subtraction using a game called Take Off and using dice to take away from bigger numbers.

We’ve been learning to use the Partner, Read, Think strategies to help us.
1. Place a stop sign.
2. Predict
3. Read together.
4. Find interesting words.
5. Ask questions. I wonder…..
6. Summarise
I learned that...
